

**FIRE FIGHTING WATER STORAGE TANK**  
> FIRE PROTECTION

**PROJECT OWNER:**

SMCA (Société de Manutention de Carburants Aviation)

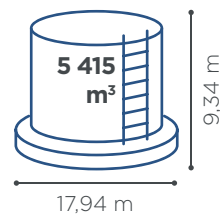

**INSTALLATION DATE:** october 2012

**LOCATION:** SMCA's jet fuel depot for the Orly airport.  
Orly Airport, Athis-Mons, France

**STORED LIQUID:** fire fighting water

**GLOBAL VOLUME:** 5 415 m<sup>3</sup> / 1 tank

**DIMENSIONS:**

## PROJECT FEATURES:

Replacement of an aged welded tank with a 5000m<sup>3</sup> bolted steel tank.

This installation was carried out to reinforce the fire protection system of a jet fuel depot managed by SMCA. This depot located at Athis-Mons near Paris, is composed of nine tanks with a total jet fuel storage capacity of 59,330 m<sup>3</sup>, to supply the Orly airport.

## LOCATION:

- › Oil depot for Orly airport.
- › Sensitive site (SEVESO, ATEX zone).
- › Highly qualified personnel with chemical authorization.
- › Close proximity to houses.
- › Installation of a fire fighting manifold with 6 outlets
- › Construction done in a very short time.
- › RAL imposed by the owner.
