

TANK STORAGE SOLUTIONS

ALUMINIUM COVERS BY ALUCOVERS® > TANK COVERS

APRO INDUSTRIE

For over 30 years, APRO Industrie has been designing, manufacturing and building modular bolted steel tanks, offering turnkey solutions for liquid storage and cover solutions.

Founded in 1987, APRO Industrie has quickly become a major international player and a trusted brand in the tank storage market.

APRO Industrie today:

- > More than 15,000 tanks in use worldwide
- > Tanks with capacities of up to 25,000 m³
- > A global expertise in liquid storage

SOLUTIONS

Aluminium covers for liquid storage tanks.

Design, manufacture, building and maintenance.

Our cover solutions are compatible with all types of tanks (bolted, welded, concrete...) and all types of geometries (cylindrical, rectangular...).

APPLICATIONS

- > Potable water
- > Water treatment
- > Effluent treatment
- > Bulk
- > Fertilisers
- > Hydrocarbons
- > Mud ...

ADVANTAGES OF THE BOLTED TANK TECHNOLOGY

- > Competitive price
- > Custom dimensions
- > Short manufacturing lead times
- > All parts manufactured in a factory-controlled setting
- > No welding on site
- > Reduced transport costs (*tanks bolted on site*)
- > Simple, fast and safe construction (*can be assembled by local workforce*)
- > Modular
- > Low maintenance
- > Light and long lasting structure

SERVICES

Our know-how and experience are demonstrated by:

- > An integrated engineering department capable of designing our covers for installation in any geographical area
- > An integrated production unit in complete control of the manufacturing process
- > An efficient logistical service with worldwide reach
- > A team of project managers who ensure the daily follow-up and the technical management of projects, from design to commissioning
- > Supervisors and experienced fitters who install all of our covers in compliance with technical and regulatory requirements
- > A reliable and responsive after-sales service
- > A deep rooted QSE (*quality, security and environment*) corporate culture combined with a logic of continuous improvement
- > Global support for projects abroad

STANDARDS

Our covers:

- > Are manufactured according to ISO 9001 quality standards
- > Meet the standards of EUROCODES, AWWA, API 650...
- > Are European CE mark certified
- > Are designed to withstand all climatic conditions (*seismicity, wind, snow*)

ALUMINIUM COVERS BY ALUCOVERS®

Our covers are waterproof, preserving the stored liquid from light, external elements and also retaining fumes (odors ...). It is self-supporting, light and easy to install. Designed in marine grade aluminum, our covers are not sensitive to atmospheric corrosion making them exceptionally long-lasting solutions (over 50 years) requiring no maintenance. All our covers are prefabricated in the factory to guarantee an optimal and constant quality level.

We offer various aluminium covers solutions:

› ALUDOME

Self-supporting geodesic domes for circular tanks as large as 120m in diameter.

› ALUGRECA

Self-supporting roofs with trapezoidal ribs for covering various structures (circular tanks, rectangular basins, buildings ...) with a range of up to 14m in diameter.

› ALUCONE

Self-supporting conical roofs to cover circular tanks up to 12m in diameter.

› ALUPLAN :

Self-supporting flat roofs for covering various structures (circular tanks, rectangular basins, buildings ...) with a range of up to 10m in diameter. Easy disassembly for the maintenance operations inside the tank.

ANCILLARIES

- › Roof inspection hatch
- › Airvents

OPTIONS

- › Peripheral handrailing
- › Access platform to the roof center
- › External polyester paint, RAL color of your choice
- › Internal thermal insulation

> FIRE PROTECTION

> URBAN AND INDUSTRIAL EFFLUENTS

> OIL & GAS - ENERGY

> POTABLE WATER & PROCESS WATER

> TANK COVERS

> MAINTENANCE AND ANCILLARIES
